

# The American Society for Industrial Security (ASIS)

The American Society for Industrial Security (ASIS) administers their exams with either computer-based delivery in the United States and Canada, or paper format outside United States and Canada. The ASIS web site is <http://www.asisonline.org>.

OCONUS DANTES TCOs may administer ASIS paper exams. ASIS computer-based exams are provided through Prometric. ASIS will notify eligible candidates that they have been approved to test by sending them an authorization to test. The authorization is valid for 2 years from the date of the authorization letter. All three examinations consist of 200 multiple-choice questions covering tasks, knowledge, and skills in eight broad subjects that come from the official reference books. Please log onto <http://www.prometric.com> for more testing information.
