

National Board for Respiratory Care (NBRC)

The National Board for Respiratory Care (NBRC) administers their exam with either paper format or computer delivery based on location. The NBRC web site is <http://www.nbrc.org/>.

DANTES TCOs in CONUS may not administer these exams. However, overseas locations may administer paper exams. TCOs must obtain specific instructions from NBRC to administer these paper format exams. NBRC's objectives and purposes are to prepare and conduct examinations for certification and registration. These objectives include approving qualifications of candidates for certification and registration and to preparing and maintaining a directory of successful candidates as Certified Respiratory Therapy Technicians (CRTT), Registered Respiratory Therapists (RRT), Certified Entry Level Pulmonary Function Technologists (CPFT), Registered Pulmonary Function Technologists (RPFT), and Neonatal/Pediatric Respiratory Care Specialists (NPS). To download an application, please refer to: http://www.nbrc.org/pdf/NBRC_application_08-web.pdf/.
