

SpaceTec®

SpaceTec® administers their own exams with either a paper format or computer-based delivery. The SpaceTec® web site is <http://www.spacetec.org>.

DANTES TCOs may administer the SpaceTec® exams in paper format only. The SpaceTec® Certified Core examination focuses on the aerospace technical core consisting of the following subject areas:

- Introduction to Aerospace
- Applied Mechanics
- Basic Electricity
- Test & Measurements
- Materials & Processes & Aerospace Safety

Candidates must meet at least one of the following verifiable criteria to sit for the exam:

1. Have a two-year technical college program degree.
2. Have or had a two-year technical military assignment.
3. Hold a FAA Airframe/Powerplant certificate.
4. Have two or more years on the job training & experience in the aerospace industry.
